My neighbor and I both had very large trees that needed to be taken down. My tree had been dying for years after getting hit by lightning. Antonio came out to give us both estimates. Had the lowest rates out of all three estimates we received. I then searched Google and Yelp reviews and decided on Prime. A team of 8 people arrived on time. My tree was 60 years old and huge. Within 35 minutes the tree was down, stump was ground and not one leaf, branch etc. was left in my yard.

My neighbor and I were very impressed. This team worked well together, were very professional, polite and friendly! I would highly recommend them.

Great price and extremely skilled. I was overly impressed with a very large difficult tree removal over powerlines. The crew was professional and their workmanship far exceeded my expectations. I confidently and highly recommend them!

Super happy with the services we received with Alex and the guys. Had 2 trees, 2 stumps, and a bunch of plants and shrubs removed for a more then reasonable price. We had tons of landscapers come out and none wanted to do the job and the ones that did, charged an arm and a leg. Tree care inc did it for a great price and knocked it out within a few hours. Such a relief for my wife and I. Very responsive and professional. Gained a lifelong customer and will refer to all family and friends.

Did a same day estimate and removed 2 trees promptly the following day. They were fast, efficient and did exactly as agreed. Fair pricing and quick clean up as well. I highly recommend them!

Alex came out and quoted us a competitive price and was able to complete the job next day! They were professional and efficient. We live on wooded lot so they gained a forever customer. Will also be recommending to our neighbors.

Great work! I had one tall tree removed with stump removal. They also trimmed 2 trees and removed a bush for a really affordable price. The process was quick and they left no mess behind. I will recommend to everyone I know. Thanks.

I would recommend this to anyone looking for Medicare insurance. There are many plans to choose from and can be a daunting task. I spoke to John White about 8 months ago. I had already signed up for a plan for 2022. John followed up with me in the beginning of April. He showed me many plans and I finally decided on one. I was also able to keep my plan F. He had a pleasant voice and not pushy. He had great follow up and was very professional. I would recommend this company to anyone looking for answers in regards to their Medicare needs.

Alex and his team were absolutely amazing! Friendly, polite, professional and well priced. They used a giant crane to remove 2 huge maple trees from between our home and power lines. They came well prepared with both men and equipment. They did one heck of a cleanup and did it all in one day. And it was 90+ degrees that day! We feel lucky to have found them and we highly recommend them. A big THANK YOU to Alex and his team.

Great company to use for tree removal. Came out and did a free estimate quoted a good price compared to other companies. Arrived on time and removed all three trees and did everything they said they would.
